

ACCESSORY 2.5" Storage Bay HDD01

ADDITIONAL 2.5" STORAGE BAY FOR EDGE-PC SPCELxx

SPCELxx series Shuttle Edge PCs can be equipped with one M.2 SSD card and one RAM module and, despite its small size, offer a wide range of I/O ports. With the optional Shuttle Accessory HDD01, a 2.5" bay can be added, providing space for a 2.5" hard drive or SSD with a SATA connection. Please choose this option in the Shuttle Systems Configurator, see <https://shop.shuttle.eu/en>.

SPCELxx
with installed
accessory HDD01

COMPATIBILITY

- HDD01 can be used as an extension for the following Shuttle Edge-PCs: SPCELO2, SPCELO2P, SPCELO3, SPCEL12
- HDD01 offers a bay for installing a storage drive with the following technical requirements:
 - hard disk or SSD in 2.5" format
 - maximum height: 15 mm
 - SATA interface

Please note: This accessory is not available separately, but can be selected as an option in the Shuttle Systems Configurator at <https://shop.shuttle.eu/en>.
