

Fanless All-in-one PC for POS applications

The Shuttle POS X503 is a valued All-in-One POS Terminal PC boasting a 39.6cm (15.6-inch) LCD touchscreen powered by Intel's dual core Atom processor D2550. This system is compatible with Windows 7 POS applications and suitable for small and medium retailers to serve customers effectively. Equipped with four USB ports and two COM ports it offers sufficient connectivity for typical POS peripherals like receipt printer, customer display, barcode scanner, keyboard, mouse and more. In addition, the HDMI and VGA ports can be used to drive a second display with basic digital signage applications. POS X503 offers a high level of reliability and is a lower priced alternative to conventional POS systems.

Shuttle POS X503 - Product Features

All applications at your fingertips

The innovative touchscreen technology delivers the simplest operation possible and makes the screen the centre of action. Have any applications start up quickly by just touching the screen for working most swiftly and conveniently.

Great connectivity

Equipped with four USB ports and two COM ports it offers sufficient connectivity for typical POS peripherals like receipt printer, customer display, barcode scanner, keyboard, mouse and more.

HDMI and D-Sub/VGA Port

The digital HDMI port or the analog D-Sub/VGA port can be used to connect a secondary external LCD display or a beamer to the PC. The integrated graphics unit supports both clone mode and extended mode.

24/7 nonstop operation

Shuttle POS X503 is officially approved for 24/7 permanent operation. Thanks to its low power consumption and completely passively cooling, this PC runs highly reliable making it perfectly suitable for digital signage and POI/POS applications.

Conditions for permanent use:

- Ambient temperature while under load: 5-35°C
- Air humidity while under load: 10-90% (not condensing)
- Free circulation of air amongst the PC must be guaranteed
- Ventilation holes must be clear

Power saving

The new POS X503 version is equipped with an Intel Atom D2550 Dual Core processor and eco-friendly ENERGY STAR 5.0 qualified power adapter that consumes about 20~27 Watt only.

All-in-one PC

Your complete PC system with many components already built in comes in just one single device! This includes the webcam, microphone, display, touchscreen input interface, wireless LAN module and speakers. Helps you save on space, looks simply stylish, reduces cable clutter.

Fanless and quiet

The Shuttle POS X503 features a cooling system that combines an integrated heatsink with thermal pads - and removes the fan. As an additional benefit, it's not only quiet but also dust-free.

Carrying handle

Cleverly, the stand can be pulled upwards to serve as a handle making the POS X503 easy to move and carry around.

Kensington Lock

This is a small, metal-reinforced hole as part of an anti-theft system. (The lock and cable are not included.)

VESA mounting

The stand on the rear can easily be removed to unveil four VESA mounting screw holes that can be used for mounting arms and other mounting devices from a variety of manufacturers.

Tiny power adapter

The external 40W power adapter is virtually noiseless and can easily be hidden behind the desk thanks to its tiny dimensions.

Dimensions: 89.5 x 37 x 26.5 mm (LWH) = 88ml
