

Management Server for D230 D230SRV

SHUTTLE MANAGEMENT-SERVER D230SRV FOR DIGITAL SIGNAGE PLAYER WITH STRETCH-DISPLAY D230

The Shuttle Management-Server D230SRV is a fanless 1.3-litre PC with Intel Core i5 processor and pre-installed Server-Software under Linux OS. It allows to control up to 150 Bar-Type Digital-Signage-Players "Shuttle D230" (one license included).

The user pushes or edits the content on the Management Server via Browser-Interface and each D230 player checks the server for new content automatically. The server allows multiple combinations of trigger conditions to perform gender/age recognition for different advertising targets. You can also analyse how often the advertising was watched and by which customer group. The user management allows the admin to define the permissions of a role or group accounts.

HARDWARE

- Shuttle XPC slim DS10U5
- Passive cooling, no fan noise at all
- Approved for 24/7 permanent operation
- 128 GB SSD, M.2 SSD card [1]
- 16 GB DDR4-2400 RAM
