## Safety Information

Read the following precautions before setting up a Shuttle XPC.

## CAUTION

Incorrectly replacing the battery may damage this computer. Replace only with the same or equivalent as recommended by Shuttle. Disposal of used batteries according to the manufacturer's instructions.

Laser compliance statement

The optical disc drive in this server is a laser product. The drive's classification label is lacated on the drive.

CLASS 1 LASER PRODUCT CAUTION : NVISIBLE LASER RADIATION WHEN OPEN. AVOID EXPOSURE TO BEAM.

## **Installation Notices**

Do not place this device underneath heavy loads or in an unstable position.

Do not expose this device to high levels of direct sunlight, high-humidity or wet conditions.

Do not use or expose this device around magnetic fields as magnetic interference may affect the performance of the device.

Do not block the air vents to this device or impede the airflow in any way.

### Motherboard Driver DVD

The DVD contents attached in SH610R4 Series motherboard are subject to change without notice.

The Motherboard Driver DVD contains all the motherboard drivers necessary to optimize the performance of this Shuttle Xvision in a Windows<sup>®</sup> OS. Install these drivers after installing Microsoft<sup>®</sup> Windows<sup>®</sup>.

Insert the attached DVD into your DVD-ROM drive. The DVD AutoRun screen should appear. If the AutoRun screen does not appear, double click on Autorun icon in My Computer to bring up Shuttle Mainboard Software Setup screen.

## Appendix

#### Starting BIOS

AMIBIOS has been integrated into many motherboards for over a decade. In the past, people often referred to the AMIBIOS setup menu as BIOS, BIOS setup, or CMOS setup.

American Megatrends refers to this setup as BIOS. Specifically, it is the name of the AMIBIOS BIOS setup utility. This chapter describes the basic navigation of the BIOS setup screens.

#### Enter the BIOS

To enter the BIOS setup screens, follow the steps below:

- Step1. Power on the motherboard.
- Step2. Press the <Delete> key on your keyboard when you see the following text prompt: Press DEL to run Setup.
- Step3. After you press the <Delete> key, the main BIOS setup menu displays. You can access the other setup screens from the main BIOS setup menu, such as the Chipset and Power menus.
  - This manual describes the standard look of the BIOS setup screen. The motherboard manufacturer has the ability to change any and all of the settings described in this manual. This means that some of the options described in this manual do not exist in your motherboard's AMIBIOS.

In most cases, the <Delete> key is used to invoke the BIOS setup screen. There are a few cases that other keys are used, such as <F1>,<F2>, and so on.

#### BIOS Setup Menu

The main BIOS setup menu is the first screen that you can navigate. Each main BIOS setup menu option is described in this user's guide.

The Main BIOS setup menu screen has two main frames. The left frame displays all the options that can be configured. "Grayed-out" options cannot be configured. Options is blue can be.

The right frame displays the key legend. Above the key legend is an area reserved for a text message. When an option is selected in the left frame, it is highlighted in white.

Often a text message will accompany it.

AMIBIOS8 has default text messages built into it. The motherboard manufacture retains the option to include, leave out, or change any of these text messages. They can also add their own text messages. Because of this, many screen shots in this manual are different from your BIOS setup screen.

The BIOS setup/utility uses a key-based navigation system called hot keys. Most of the BIOS setup utility hot keys can be used at any time during the setup navigation process. These keys include <F1>, <F4>, <Enter>, <ESC>, <Arrow> keys, and so on.

There is a hot key legend located in the right frame on most BIOS setup screens.

Hot Key	Description
→ Left ← Right	The Left and Right <arrow> keys allow you to select a BIOS setup screen. For example: Main screen, Advanced screen, Chipset screen, and so on.</arrow>
↑ Up ↓ Down	The Up and Down <arrow> keys allow you to select an BIOS setup item or sub- screen.</arrow>
+- Plus/Minus	The Plus and Minus <arrow> keys allow you to change the field value of a particular setup item. For example: Date and Time.</arrow>
Tab	The <tab> key allows you to select BIOS setup fields.</tab>
F1	The <f1> key allows you to display the General Help screen. Press the <f1> key to open the General Help screen.</f1></f1>
F4	The <f4> key allows you to save any changes you have made and exit BIOS Setup. Press the <f4> key to save your changes. Press the <enter> key to save the configuration and exit. You can also use the <arrow> key to select Cancel and then press the <enter> key to abort this function and return to the previous screen.</enter></arrow></enter></f4></f4>
ESC	The <esc> key allows you to discard any changes you have made and exit the BIOS Setup. Press the <esc> key to exit the BIOS setup without saving your changes. Press the <enter> key to discard changes and exit. You can also use the <arrow> key to select Cancel and then press the <enter> key to abort this function and return to the previous screen.</enter></arrow></enter></esc></esc>
Enter	The <enter> key allows you to display or change the setup option listed for a particular setup item. The <enter> key can also allow you to display the setup subscreens.</enter></enter>

## 📉 Main Setup

When you first enter the BIOS Setup Utility, you will enter the Main setup screen.

You can always return to the Main setup screen by selecting the Main tab. There are two Main Setup options. They are described in this section. The Main BIOS Setup screen is shown below.

Aptio Setup – AMI Main Advanced Security Boot Exit				
System Overview		Set the Date. Use Tab to switch between Date elements.		
BIOS Version: Build Date:	1.0 08/31/2022	switch between bate elements.		
EC Version:	0.01.28			
Intel ME Version:	16.0.15.1810			
BIOS Firmware GUID 54F71E7E-E1FD-4EE6-A34B-BF03	97033A34			
Processor 12th Gen Intel(R) Core(TM) i	Processor 12th Gen Intel(R) Core(TM) 15–12400			
System Memory Total Memory:	8192 MB (DDR4)	Enter: Select +/−: Change Opt. F1: General Help		
System Date System Time	[Thu 05/01/2022] [15:41:30]	F2: Previous Values F3: Optimized Defaults F4: Save & Exit ESC: Exit		
Version 2.22.1285 Copyright (C) 2022 AMI				

#### System Time/System Date

Use this option to change the system time and date. Highlight System Time or System Date using the <Arrow> keys. Enter new values through the keyboard. Press the <Tab> key or the <Arrow> keys to move between fields. The date must be entered in MM/DD/YY format. The time is entered in HH:MM:SS format.

The time is in 24-hour format. For example, 5:30 A.M. appears as 05:30:00, and 5:30 P.M. as 17:30:00.

#### Advanced

Select the Advanced tab from the BIOS setup screen to enter the Advanced BIOS Setup screen. You can select any of the items in the left frame of the screen, such as CPU Configuration, to go to the sub menu for that item.

You can display an Advanced BIOS Setup option by highlighting it using the <Arrow> keys. All Advanced BIOS Setup options are described in this section.

The Advanced BIOS Setup screen is shown below. The sub menus are described on the following pages.

## TPM Configuration

Advanced	Aptio Setup – AMI	
Security Device Support	[Enabled]	Enables or Disables BIOS support for security device. O.S. will not show Security Device. TCG EFI protocol and INT1A interface will not be available.
		<pre>++: Select Screen fl: Select Item Enter: Select +/-: Change Opt. F1: General Help F2: Previous Values F3: Optimized Defaults F4: Save &amp; Exit ESC: Exit</pre>
1	/ersion 2.22.1285 Copyright (C) 2022	2 AMI

Security Device Support

This item allows user to enable/disable firmware TPM funciton.

➤ The choice: Enabled, Disabled.

#### Power Management Configuration

#### Wake Up by USB (S3)

This item allows you to enable or disable system wake up by USB (S3).

> The choice: Enabled , Disabled.

#### **EuP Function**

This item allows you to enable or disable system EuP function in S4/S5. ➤ The choice: Enabled , Disabled.

#### Power-On after Power-Fail

This item allows you to set system power on automatically after AC power restored.

The choice: Power On, Former-sts, Power Off, Power On by LAN, Power On by RTC.

PowerOn by RTC Alarm

When enabled, System will wake on the hr::min::sec specified.

➢ The choice: Enabled , Disabled.

Wake Up by LAN

This item allows you to enable or disable system wake on by LAN.

> The choice: Enabled , Disabled.

#### CPU Configuration

You can use this screen to select options for the CPU Configuration Settings. Use the up and down <Arrow> keys to select an item. Use the <Plus> and <Minus> keys to change the value of the selected option. A description of the selected item appears on the right side of the screen. The settings are described on the following pages. An example of the CPU Configuration screen is shown below.

The CPU Configuration setup screen varies depending on the installed processor.

Aptio Setup - AMI Advanced				
CPU Configuration		Intel(R) Virtualization Technology		
ID	0x90672	10011102085		
Brand String	12th Gen Intel(R) Core(TM) i5–12400			
VMX	Supported			
SMX/TXT	Not Supported			
L1 Data Cache	48 KB × 6			
L1 Instruction Cache	32 KB x 6			
L2 Cache	1280 KB × 6			
L3 Cache	18 MB			
Intel(R) V.T.	[Enabled]			
Active Cores	[A11]	++: Select Screen

Intel(R) Speed Shift	[Enabled]	Enter: Select		
Technology		+/-: Change Opt.		
EIST	[Enabled]	F1: General Help		
Turbo Mode	[Enabled]	F2: Previous Values		
C State Support	[Enabled]	F3: Optimized Defaults		
		F4: Save & Exit		
		ESC: Exit		
	Version 2.22.1285 Copyright (C) 2	022 AMI		

#### Intel(R) V. T.

When enable, a VMM can utilize the additional hardware capabilities provided by vanderpool Technology.

> The choice: Enabled , Disabled.

#### Active Cores

This item allows you to determine how many cores to be enabled.

Intel(R) HT Technology

This item allows you to enable or disable Intel(R) HT Technology.

> The choice: Enabled , Disabled.

Intel(R) Speed Shift Technology

This item allows you to enable or disable Intel(R) Speed Shift Technology (ISST).

> The choice: Enabled , Disabled.

<u>EIST</u>

This item allows you to enable or disable Enhanced Intel SpeedStep<sup>®</sup> Technology.

> The choice: Enabled , Disabled.

Turbo Mode

This item allows you to enable or disable Intel<sup>®</sup> Turbo Boost Technology.

> The choice: Enabled , Disabled.

The CPU Configuration setup screen varies depending on the installed processor.

#### C State Support

This item allows you to enable or disable CPU C State.

> The choice: Enabled , Disabled.

## SATA Configuration

Advanced	Aptio Setup — AMI	
Advanced SATA Configuration SATA Mode Selection M.2 NVMe M.2 SATA1 Hot Plug SATA2 Hot Plug SATA3	[AHCI] [Not Detected] [Not Detected] [Not Detected] [Disabled] [Not Detected] [Disabled] [Not Detected]	SATA Port Hot Plug Support

Intel(R) VT-d	[Enabled]	Frier: Select +/−: Change Opt. F1: General Help	
<ul> <li>Serial Port Configuration</li> </ul>		F2: Previous Values F3: Optimized Defaults F4: Save & Exit ESC: Exit	
Version 2.22.1285 Copyright (C) 2022 AMI			

High Definition Audio

This item allows you to enable or disable system High Definition Audio.

➤ The choice: Enabled , Disabled.

M.2 Device Select

This item allows you to select which kind of device type for M.2 slot.

> The choice: Auto, PCIe, and SATA.

Onboard LAN1 Function

This item allows you to enable or disable LAN1 Function.

➤ The choice: Enabled , Disabled.

Onboard LAN Boot ROM

This item allows you to enable or disable Onboard LAN Boot ROM.

➤ The choice: Enabled , Disabled.

#### PCIeX16,X1 Speed

This item allows user to select PCIe Speed.

> The choice: Auto, Gen1, Gen2, Gen3, Gen4(PClex16) and Gen5(PClex16).

#### Initiate Graphic Adapter

Select which graphics controller to use as the primary boot device.

Set Initiate Graphic Adapter to "HG" and enable Multi-Monitor feature.

➤ The choice: PCIE, onboard, HG.

#### IGD Memory Size Select

Allows you to select the size of system memory used by the internal graphics device.

> The choice: 32MB, 64MB, 128MB, 256MB, 512MB.

#### Intel(R) VT-d

This item allows you to enable or disable VT-d.

➤ The choice: Enabled , Disabled.

#### Serial Port Configuration

Option are in its sub-menu.

Press<Enter>to enter the sub-menu of detailed options.

#### <u>Serial Port 1</u>

This item allows you to enable or disable Serial Port.

 $\succ$  The choice: Enabled, Disabled.

Aptio Advanced	Setup Utility – Copyright (C) 20	18 American Megatrends, Inc.
Serial Port 1 Change Settings	[Enabled] [3F8h]	Enable or Disable Serial Port (COM) ++: Select Screen 11: Select Item Enter: Select +/-: Change Opt.
	on 2.20.1271. Copyright (C) 2018	F1: General Help F2: Previous Values F3: Optimized Defaults F4: Save & Exit ESC: Exit

#### Hardware Health Configuration

#### FAN1/FAN2 Speed Control

This item allows you to set CPU Fan Speed.

The choice: Smart Fan Mode, Ultra-Low Speed, Low Speed, Mid Speed, Full Speed.

### Security

Select the Security tab from the BIOS setup screen to enter the Security BIOS Setup screen. You can display an Security BIOS Setup option by highlighting it using the <Arrow> keys. All Security BIOS Setup options are described in this section.

The Security Setup screen is shown below. The sub menus are documented on the following pages.

Aptio Setup – AMI Main Advanced <mark>Security</mark> Boot Exit				
Supervisor Password: User Password:	Not Installed Not Installed	Set Supervisor Password		
Change Supervisor Password Change User Password	(out out)			
Password Login control	[Setup]			
Flash Write Protection	[Disabled]			
Secure Boot Control	[Disabled]			
		↔: Select Screen ↓: Select Item		
		Enter: Select		
		+/−: Change Opt.		
		F1: General Help F2: Previous Values		
		F3: Optimized Defaults		
		F4: Save & Exit ESC: Exit

#### Supervisor Password

Indicates whether a supervisor password has been set. If the password has been installed, Installed displays. If not, Not Installed displays.

#### User Password

Indicates whether a user password has been set. If the password has been installed, Installed displays. If not, Not Installed displays.

#### Change Supervisor Password

Select Change Supervisor Password from the Security Setup menu and press <Enter>.

Enter New Password:

Type the password and press <Enter>. The screen does not display the characters entered. Retype the password as prompted and press <Enter>. If the password confirmation is incorrect, an error message appears. The password is stored in NVRAM after BIOS completes.

#### Change User Password

Select Change User Password from the Security Setup menu and press <Enter>.

Enter New Password:

Type the password and press <Enter>. The screen does not display the characters entered. Retype the password as prompted and press <Enter>. If the password confirmation is incorrect, an error message appears. The password is stored in NVRAM after BIOS completes.

#### Password Login control

This item allows user to adjust Password Login control.

> The choice: Setup, Boot, Both.

#### Flash Write Protection

Choose [Enabled] to avoid virus destroy BIOS. If you want to flash BIOS, you must set it [Disabled].

> The choice: Enabled or Disabled.

#### Secure Boot control

This item allows you to enable or disable Secure Boot.

> The choice: Enabled or Disabled.

## 🙇 Boot

Select the Boot tab from the BIOS setup screen to enter the Boot BIOS Setup screen. You can select any of the items in the left frame of the screen, such as Boot Settings Configuration, to go to the sub menu for that item.

You can display an Boot BIOS Setup option by highlighting it using the <Arrow> keys. All Boot BIOS Setup options are described in this section.

The Boot BIOS Setup screen is shown below. The sub menus are described on the following pages.

Main Advanced Security B	Aptio Setup – AMI Boot Exit	
Boot Settings Configuration Bootup Num-Lock Boot from USB device	[Enabled] [Enabled]	Select the keyboard NumLock state.

#### Bootup Num-Lock

This item allows you to enable or disable keyboard Num-Lock state. ➤ The choice: Enabled, Disabled.

#### Boot from USB device

This item allows you to enable or disable boot from USB device.

The choice: Enabled , Disabled.

### Fast Boot Function

This item allows you to enable or disable Fast Boot Function. ➤ The choice: Enabled , Disabled.

Boot Device Priority (Boot Option #1/2/3/....)

Specifies the boot sequence from the available devices. A device enclosed in parenthesis has been disabled in the corresponding type menu.

## 🛬 Save & Exit

Select the Exit tab from the BIOS setup screen to enter the Exit BIOS Setup screen.

You can display an Exit BIOS Setup option by highlighting it using the <Arrow> keys. All Exit BIOS Setup options are described in this section.

The Exit BIOS Setup screen is shown below.

Aptio Setup – AMI Main Advanced Security Boot <mark>Exit</mark>	
Save Changes and Exit Exit Without Saving Changes	Exit system setup after saving the changes.
Load Defaults Settings	
	++: Select Screen 11: Select Item Enter: Select
	+/−: Change Opt. F1: General Help F2: Previous Values
	F3: Optimized Defaults F4: Save & Exit ESC: Exit
Version 2.22.1285 Copyright (C)	ZUZZ HMI

Save Changes and Exit

When you have completed the system configuration changes, select this option to leave BIOS Setup and reboot the computer so the new system configuration parameters can take effect.

Select "Save Changes and Exit" from the Exit menu and press < Enter>.

Save Configuration Changes and Exit Now?

[Ok] [Cancel]

appears in the window. Select Ok to save changes and exit.

#### Exit Without Saving Changes

Select "Exit without Saving Changes" from the Exit menu and press <Enter>. Select Ok to discard changes and Exit.

#### Load Defaults Settings

BIOS automatically sets all BIOS Setup options to a complete set of default settings when you Select this option. The Optimal settings are designed for maximum system performance, but may not work best for all computer applications. In particular, do not use the Optimal BIOS Setup options if your computer is experiencing system configuration problems.

Select Load Optimal Defaults from the Exit menu and press <Enter>.

Select Ok to load optimal defaults.

## 产品中有害物质的名称及含量

## 产品名称:SH610R4

部件名称 及 型号	有害物质					
	铅(Pb)	汞(Hg)	镉(Cd)	六价铬 (Cr(VI))	多溴联苯 (PBB)	多溴二苯醚 (PBDE)
内存	0	Ο	0	Ο	0	О
电路板组件	х	0	0	Ο	0	О
风扇	0	0	0	Ο	0	О
金属件	х	0	0	0	0	0
线材	0	0	0	0	0	0
电源	х	0	0	0	0	0

\*:电路板组件包括印刷电路板及其构成的零部件,如电阻、电容、集成电路、连接器等

本表格依据 SJ/T 11364 的规定编制

O:表示该有害物质在该部件所以均质材料中的含量均在 GB/T 26572 规定的限量要求下。

X:表示该有害物质至少在该部件的某一均质材料中的含量超过 GB/T 26572 规定的限量要求。

上表中打 "X" 的部件中, 应功能需要, 部分有害物质含量超出 GB/T 26572 规定的限量要求, 但符合欧盟 ROHS 法规要求(属于豁免部分)
