FANLESS-PCS READY FOR THE NEW DECADE

Four fanless Mini PCs that are ideally suitable for use on the desk, in the warehouse, in production, as a server or in a digital signage environment. The DS10-Series is here to meet the requirements of your individual projects. Regardless of their intended use, these space-saving PCs are highly durable. Thanks to the vast connectivity of each particular model, the DS10-Series hardly leaves something to be desired.
