SHUTTLE XPC DH370 ▶ MAXIMUM PERFORMANCE PER CUBIC CENTIMETRE

The DH370 impresses thanks to its performance and versatility in a completely renewed design with a volume of just 1.3 litres. Based on the Intel H370 chipset, it supports powerful Intel processors with six cores and 12 threads (e.g. Core i7-8700) of the eight and ninth** generation. Three monitor ports, up to 32 GB of memory, space for two drives, eight USB ports, four of which as USB 3.1 Gen 2 with 10 Gbit/s, as well as different installation options make this model an extremely flexible Mini-PC. Ideal for use in digital signage environments or for high-resolution multi-display workstations in medical, creative and office settings.
