HDMI 2.0

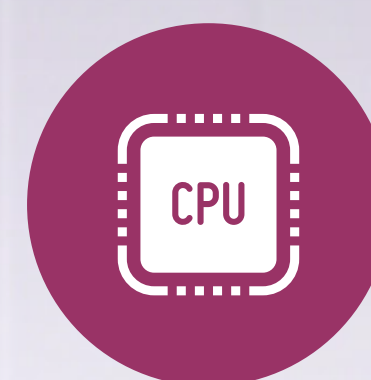

NVME

DUAL GIGABIT

SERIAL PORT

COFFEE LAKE SSD

REMOTE ON

XH310 / XH310V ► FLEXIBLE 3-LITRE PCS FOR (ALMOST) ANY APPLICATIONS

The spec sheets of these two models actually make you think of larger PCs. But if you look at the bare size, you will quickly be astonished. Despite their height of just 7.2 cm and width of 20 cm, these models support Intel Core processors (LGA1151v2), boast up to 32 GB of DDR4 memory, 2x Gigabit LAN, HDMI 2.0a, DisplayPort, VGA, 2x RS-232, space for two hard drives and one NVMe SSD as well as expansion possibilities for WLAN, among other options. What's more, the XH310 can even be outfitted with up to five serial interfaces. A new feature of this chassis type is the external remote power-on connection, which allows the device to be started when installed in hard-to-reach environments. Simply put, an impressively flexible Mini-PC solution for (almost) all kinds of applications.

FEATURES

- SUPPORTS INTEL PROCESSORS IN THE LGA1151V2 SOCKET
- THREE MONITOR PORTS FOR MAXIMUM FLEXIBILITY
- 2x GIGABIT ETHERNET, WLAN OPTIONAL
- 8x USB, 2x RS-232
- XH310V WITH BAYS FOR ODD AND FRONT PORTS
- VESA MOUNT, STAND AND BRACKET FOR 3.5" HDDS (AVAILABLE SEPARATELY)

*Vertical operation with the PS02 stand which is available separately. The accessories shown are not included with the product. Subject to errors and alterations.
